

YW Tech Lab

A Program of YWCA Evanston/North Shore in partnership with Oakton Community College

eliminating racism
empowering women

ywca

Evanston/North Shore

Oakton
Community College

Why You Should Hire A YW Tech Lab Graduate

Graduates learn the foundations of web development including design, HTML, CSS, and Javascript.

Support your Diversity, Equity, and Inclusion goals by bringing in people with different backgrounds

Graduates have a passion for technology and eagerness to continue their training

"I was so far removed from technology that it was challenging at first. Help and patience from Professor Peart and all the tutors has changed that. I'm finding it exciting to learn and navigate the field of digital design. "

- YW Tech Lab Student
